FOR PARTIES OF SETTLERS DUE IN CAN SATURDAY

Four Excursions, and Two Parties of Old Country Settlers, Now on Train Headed for This Province

With four settlers' excursions bound for Alberta one day's run out on their journey, several other large parties of settlers on the way from the old country, and one or two other parties passing through Toronto and Winnipeg, bound for Edmonton, this city is to experience an overwhelming rush of new people on Saturday next, when the majority of these excursions will reach the city.

According to a careful estimate, there must be nearly 2,000 settlers on trains bound for Alberta this week. No rush like this has ever been experienced in the history of immigration in the West, and Alberta is the magnet that is drawing them.

New Party Heralded.
The latest party to be heralded is one of 200 wealthy French farmers and their families, who, with over half a million dollars in their pockets, are on their way to Edmonton.

The party passed through Toronto today, according to a despatch received by the Capital. They will take up land at once in this vicinity.

The excursions, started from Montreal and Toronto by the government publicity department will reach here Saturday evening or Sunday. They are each bringing about 300 or 400. The excursions from Great Falls and Oshkosh have also started for the province.

HEALTH RESOLUTIONS ARE DISCUSSED BY S'CONA BOARD

ALDERMEN OBJECT TO MAKING INSTALLATION OF WATER AND SEWER SERVICES COMPULSORY— QUESTION REFERRED TO CITY SOLICITOR

matter was referred to the solicitor.

Strathcona, April 5.—The resolution sent up to the council by the board of trade urging that installation of water and sewer services be made compulsory where possible in the city, did not meet with unqualified approval at last night's regular meeting.

In committee of the whole on the resolution, Mayor Davies explained that the board thought the water and sewer connections should be made compulsory in order that the general health might be better safeguarded. He thought that a great many instances where health could be improved by these connections were being neglected to do so.

Mr. Laing objected strenuously to this action, holding that the expenditure involved in making these connections could not be rightfully saddled upon the citizens. He thought that a hardship would be worked on a great many by this enforcement.

After extended argument on the question Solicitor Jamieson said he was not clear on the charter provision which would enable the council to take the proposed step. He thought one clause might give power to have this done in the manner of an ordinary public improvement and thus have the term of payments extended over several years for the property owners.

On the other hand, Mr. Harkin thought for a report to be submitted at the next regular meeting.

Will Consider Incinerator.
The resolution advising the purchase of an incinerator met with general favor. Mayor Davies spoke broadly on the subject holding that the health question is one of gigantic importance to the city and that expenses such as the purchase of an incinerator must be met. The board could think of no other satisfactory method of disposal.

On his motion the clause was adopted and a committee consisting of Ald. Thompson, Vogel and Calder was appointed to go into the matter of arranging for the purchase of a machine and report to council.

Medical Health Officer Reported.
The medical health officer reported that no new cases of scarlet fever have developed since Thursday last and that the disease is now under control.

Amalgamation Board Enlarged.
Ald. Thompson moved the following resolution to increase the membership of the amalgamation board and this was carried unanimously. The resolution reads:

"WHEREAS: It is the belief of this council that the majority of the ratepayers of the city are in favor of the amalgamation of the city with the town of Strathcona and the town of St. James, and that it is in the public interest to take steps to ascertain whether or not an amalgamation can be effected."

MAKING PARK NEAR GOVT. BUILDINGS

Houses Being Moved From Black Block Purchased by Government Immediately in Front of Present Buildings.

Preparations to establish a park on the block of property owned by the federal government immediately in front of the present government buildings, are now being made by the public works department and the houses on the block are being removed today.

The provincial government some time ago purchased this block of property. They are now removing the houses and the two lots sold will be given to the city at the corner of Sixth and Saskatchewan. The block is bounded by Saskatchewan, Sixth, Calgary and Seventh.

The purchase of this block gave the government ownership of all the property extending west from Sixth street to Eleventh. The intention is to have a park made of the entire property surrounding the new provincial buildings.

APARTMENT BLOCK CO. INCORPORATED

Syndicate of Edmonton Men Organized
Which Will Erect Modern Blocks
in Various Parts of the City.

The incorporation of the Edmonton Apartment Houses, a syndicate of Edmonton and old country business men which will undertake the erection of several large apartment houses in the city, is published in the current issue of the Alberta Gazette.

The company is capitalized at \$500,000. Its first undertaking will be the erection of a big apartment block on the handily property on Fifth street overlooking the river valley. This block will be five or six stories high, and will cost nearly \$500,000. It will be the most up-to-date apartment house in the west. W. A. Griesbach, who for the company, is now in the old country interesting capital in the project. It is the intention of the company to erect several similar blocks in the city in the future.

H. C. McMillan, live stock agent of the C. P. R., is visiting the city today on business.

MAY ESTABLISH AN EDMONTON DIOCESE

Archbishop's Fund of England, Makes
Contribution of \$5,000 to New
Bishopric of Anglican Church.

The establishment of a new bishopric of the Anglican church, to be known as the Edmonton bishopric, and which has been under consideration for some time, is to be assisted to the extent of a grant of \$5,000 from the archbishop's fund in England.

A despatch to this effect was received by the Capital this morning, from London. The appeal for assistance from this fund was made some time ago by the bishop of Calgary.

BANK OF B.N.A. BUYS A SITE ON JASPER

Pays \$2000 Foot Cash for National
Trust Property at the
Corner of First and Jasper.

TO ESTABLISH BRANCH
IN THE CITY AT ONCE

Deal Is Biggest Cash Purchase
Ever Put Through in City—
Amount Involved Over \$12,000.

Completing today, the biggest cash deal in city realty that has ever been reported, the Bank of British North America has purchased the National Trust Co. property at the northeast corner of First and Jasper for \$2,000 per foot cash.

The amount paid over in cash coin was something over \$12,000.

The new bank will open a branch immediately in the old National Trust building, which the trust company are vacating to occupy their handsome new building across the street.

The deal by which the new bank people buy the desirable Jasper corner was reported in the Capital on Monday, but the names of the purchasers were not at that time given.

The agents who completed the deal were the North Western Investment agency and R. W. Mayhew and Co., of Calgary and Edmonton.

It is understood to be the intention of the bank to put up a huge block on the corner within the next year or two. The bank recently purchased the Chown hardware property on Jasper, next to the National Trust Co. for \$70,000, and it is understood that they will offer this for sale again.

The National Trust Co. corner has a frontage on Jasper of 56 feet, and the lot has a width at the rear of about 70 feet and a frontage on First street of 100 feet.

SHAGHNESSY IN LONDON.
London (C.A.P.), April 5.—Sir Thomas Shaghnassy has arrived here from the continent.

London (C.A.P.), April 5.—The Duke of Connaught, who is en route to the Middle East, is expected to form the first imperial service battalion. By this step members have volunteered to form a unit to go on active service whenever required.

States Favor Reciprocity

EXPRESS DELIVERY
LIMITS EXTENDED

Companies Must Now Deliver to Any
Point Within City—Limits in Ed-
monton Stopped at Eleventh St.

Local Express companies have received no notification yet of the order of the railway commissioners of Canada, to the effect that the express companies must deliver parcels to any point within the municipality.

When this order comes into force in Edmonton it will mean a considerable extension to the limits of delivery at present in effect. The Dominion Express Co. limits of delivery only reach Eleventh street to the west, and Southgate street to the north. It was the intention of the Dominion Co. to extend the limits west to Sixteenth street this spring, but the new order of the railway commission will extend them even farther.

DAIRY INSPECTOR SUBMITS REPORT

Points out That It Is Impossible to Regulate Milk Supply From Dairies Outside of City.

The Edmonton City Dairy, from which a very large proportion of the Edmonton milk supply is derived, is severely criticized by Dairy Inspector Logan in the report for the month of March. The inspector dwells at length upon the difficulty under which he labors in his endeavor to control the supply from a dairy which is not within the Edmonton city limits.

"I would bring to your notice," says Mr. Logan, "the fact that the City Dairy Co. of Canaan Street, Saskatchewan, are receiving and handling a quantity of milk and cream from various sources which are neither inspected by the Strathcona Dairy Inspector or myself, and that there is absolutely no guarantee whatever that this milk and cream is not being sold in the City of Edmonton. Furthermore I would draw attention to the fact that I am only inspecting four dairies, yet this company are playing a fairly large cream and ice cream trade. Even keeping a special man to manufacture ice cream.

"The City Dairy Co. are shipping milk from parties who are only shipping every alternate or third day. When inspecting the City Dairy Company's plant on the 17th of March, at the time of my visit they were tearing milk on what is generally known as the flash system at the temperature of 145 deg. F."

The results of the month's tests of milk, for constituents, are somewhat baffling, and March in a very large percentage of the dairies of the city there has been remarkable for a falling off in the percentage of butterfat in the product. The legal standard of 2.5 per cent. in many instances not attained, and a sample which was taken from the Lepard dairy on March 24, showed so low a percentage as 2.1. This was subjected to a test by Dr. Russell, provincial bacteriologist, who reports that the sample is decidedly "abnormal." The percentage of actual solids is up to the standard, yet the butterfat is exceptionally low. This sample alone has been subject to the test, but there is a general falling off, almost universal throughout the district. No satisfactory explanation of the remarkable change from previous months has been forthcoming. It is possible to maintain the percentage of solids in milk, even when butterfat shows a falling off, by adulteration.

Forty dairies were inspected during the past month, and of these only four were scored "good" in respect to milk house, stable and utensils. These were Morris Bros., who have secured the maximum score of 91.40 per cent. John A. Davies, with 83 per cent. John Dorman, with 80.92 per cent. and M. Simpson, with 73.65 per cent. Seven of the dairies of the district are scored "poor" in respect to at least one of these particulars.

The lowest percentage scores on record, for stable, milk house and utensils, is given to Geoffrey Brothers, on a test taken on March 17. The total is but 18.15 per cent., but the inspector reports that on a subsequent visit on March 31, the condition of things was much improved. Other dairies which are scored "poor" upon at least one feature of the plant, are M. Warner and Sons, Edmonton City Dairy, R. Grieson, Geo. W. Wilkinson, E. R. James, L. Roth.

The condition of the herds shows improvements.

Exclusive Privileges in Newwear at Kelly & Moore's.

DIVIDE LUTHERAN CONFERENCE.

Moorehead, Minn., April 5.—Pastors and lay delegates representing 126 congregations of the Swedish Lutheran church met for a two days' session here today to discuss the project for the division of the Minnesota conference and the creation of a new conference. A favorable action taken the proposal will be submitted to the Auxiliary Synod for final action at its annual meeting in Duluth next June.

For satisfaction in jewelry buying visit Ash Bros.

MASSACHUSETTS G. A. P.

Boston, Mass., April 5.—With Commander-in-Chief John E. Gilman and his staff as guests of honor, the Department of Massachusetts, Grand Army of the Republic, began its forty-fifth annual encampment today in Faneuil hall. Department Commander Granville C. Fiske called the gathering to order at 10 o'clock this morning and the greater part of the day was devoted to the annual reports and other business of a routine nature. The Woman's Relief Corps and other auxiliary organizations are also in annual session. The proceedings will continue over tomorrow.

MORE HONORS FOR PEARY

New York, April 5.—In honor of Rear-Admiral Robert E. Peary, U. S. N., the Brooklyn Institute and the Peary Arctic club of this city will assist in the celebration of the second anniversary of the discovery of the North Pole, tomorrow evening, in the Academy of Music in Brooklyn. Gen. Thomas H. Hubbard, president of the Peary Arctic club, will preside and Rear Admiral Peary will be present to receive the honorary membership conferred upon him by the Brooklyn institute.

Exclusive Patterns in neagee shirts at Kelly & Moore's.

TO EXPLORE OCEAN WILDS

Iowa City, Ia., April 5.—Today saw the departure of the most important scientific expedition ever sent out by the State University of Iowa. The expedition consist of a party of four, headed by Prof. Homer D. Dill. The objective point is the Laysan Island, located 800 miles southwest of the Hawaiian group. The party will remain on the island three months collecting scientific material relative to the study of bird life.

The material secured will be brought to the university, mounted and assembled into a realistic reproduction or cyclorama of the scene of Laysan. More than a dozen birds will be used in the reproduction, with countless others painted on the scenery forming the background. The undertaking is believed to be the largest and most important of its kind ever attempted by any American educational institution.

If there's a new thing out in Men's Furnishing, you'll sure see it at Kelly & Moore's.

SOUTH CAROLINA B. V. P. U.

Union, S. C., April 5.—Many delegates and visitors arrived here today for the annual convention of the Baptist Young People's Union of South Carolina. The meeting will last three days, the sessions being held in the First Baptist Church. Many prominent Baptist preachers and educators are on the programme for addresses.

CONCERT DIRECTION GEO. H. SUCKLING

Reproduction of The Great

Cowboy and Indian Frontier Celebration

HELD AT CHEYENNE, WYOMING

FIRST TIME IN EDMONTON

New Bijou Theatre

First Street

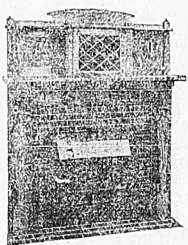

The greatest assemblage of those memorable but fast vanishing characters of the western border, in dare-devil feats of skill and human endurance. Real Indians in their weird and savage ceremonies of frontier days. A celebration that Colonel Roosevelt travelled 3,000 miles to see, and said, "It was the greatest show that could possibly be staged in 1910." Can you afford to miss it?

Real cowboys, cowgirls, Indians, buffalo, wild steers, wild bronchos, all kinds of Indian races. A sight of a life time.

If You Want the Best Range in the World, Buy the "FAVORITE"

IT MAY OR MAY NOT COST YOU A LITTLE MORE THAN AN INFERIOR KIND, BUT IF YOU'RE DETERMINED TO HAVE THE BEST IT IS INEVITABLE THAT YOU WILL BUY THE FAVORITE. THERE ISN'T A SINGLE DETAIL ABOUT THE FAVORITE THAT DOESN'T SHOW AN IMPROVEMENT ON THE BEST FEATURES OF OTHER RANGES. THE FAVORITE IS A COMBINATION OF BEST IDEAS, BEST MATERIAL AND BEST WORKMANSHIP. WE THINK THE FAVORITE IS THE HANDSOMEST RANGE ON THE MARKET, BUT YOUR TASTE DECIDES THIS POINT. IT HAS HEAVILY NICKELLED TRIMMINGS, BUT IS NOT GAUDY. BE SURE AND SEE THE FAVORITE BEFORE YOU BUY—THAT IS ALL WE ASK. MADE IN FOUR SIZES.

\$45.00 \$52.00 \$55.00 \$65.00

We will arrange terms with responsible people.

STRATHCONA NEWS

In Italian's hall next Friday evening the Strathcona Club will hold their annual meeting at which several important matters of business will come up for consideration, this to include the election of officers for the coming season. All members of the organization are particularly requested to be present at this meeting.

Messrs. J. C. McWhitney and W. H. Bockus are local men who will shortly open a new cashmere business in the premises to be vacated by the L. L. Fuller Co. on Whyte avenue just formerly engaged here in the jewelry business but left for the Peace river district several months ago from which place he has but recently returned. The L. L. Fuller Co. will within a few days occupy larger and more central offices in the building recently vacated by George's Cafe.

Though in some respects the coming season appears to offer better opportunities than usual in local interest ranks, there is a lack of tangible interest on the part of the city's business men which is discouraging to the players at this stage of the game. An organization meeting was called for last Friday night, but a small crowd turned out, amongst which the business men were remarked by their absence. A number of fast material, however, can be brought into a city team this summer, and there is good assurance that a team will be entered in the coming season.

Not many farmers in this district find anything alarming in the present storm. Although the frost was out to a considerable depth prior to yesterday's freeze-up, there had been very little spring work done on the land and no seeding was under way. This storm, in the general opinion, will not delay work to any considerable extent, and will perhaps remove the possibility of a bad spell of weather at a later and busier part of the season. C. P. R. Claims Agent Burks, of Calgary, was in the city Saturday looking after some local matters in connection with his department.

Hon. A. C. Rutherford left Saturday for Europe, where he will spend the greater part of the next two months, visiting several principal points on the continent.

Mr. Andrew Carnegie has written the city library board, declining to make a \$25,000 grant of a building here, as was requested. He is understood to have spoken of a smaller sum which he would be willing to donate, but the amount is not stated.

SUPREME COURT.

April sitting of the Supreme Court opened yesterday, Mr. Justice Simons on the bench. Cases set down for hearing in the order given below.

Wednesday, April 5, Evans vs. Evans Construction Co. Wilkins vs. Kelly & Elliott.

Thursday, April 6, Kramer vs. Hoelrsdoerfer.

Friday, April 7, Collison vs. International Harvester Co.

Monday, April 10, Knight vs. Cushing, et al.

April 11, Kennedy vs. City of Edmonton.

Wednesday, April 12, G. T. P. vs. City of Edmonton. Fraser vs. Henderson, et al.

Thursday, April 13, Kiser et al. vs. Lang et al. Kuhl vs. Korchinski.

Tuesday, April 18, Stephens vs. Saturday News. Johnson vs. Johnson.

Wednesday, April 19, Black vs. Woods.

Thursday, April 20, Germain vs. Boudreau.

Friday, April 21, Von Pletzen vs. Anne Brick Co.

The following cases will come up for trial at the May sittings of the court:

Domination Fire vs. Wadleigh.

Albertson vs. Secord.

Mellan vs. Jozak.

Blucher vs. Occidental Fire Insurance Co.

Hotel Exemption Poor Precedent To Establish

Following the city council's determination to give the Grand Trunk Pacific hotel site a fixed assessment, Messrs. Calhoun and Ferguson, owners of the King Edward hotel, ask that their property be also similarly assessed, on the ground that they have supplied pretty fair hotel service during times when the construction of an hotel such as theirs was a good deal of a risk, and that they are quite as much entitled to the exemption as the Grand Trunk Pacific.

If this logic is sound in the case of Calhoun and Ferguson, it should be equally sound in the case of other hotel owners in the city, and if the G. T. P. is to get a fixed assessment, then why not every hotel in the city?

Edmonton asks no tax on buildings. The G. T. P. is free to come into the city and build an hotel worth as many millions as they may care to spend, and not one nickel will they be charged for the money they have invested in their buildings. But when they ask an advantage over all other hotels to the extent that they be relieved of the taxes on the ground space which they occupy, they ask something which no other hotel owner so far has had the assurance to even suggest.

The city council did not require to break a rule of non-exemption to get the G. T. P. hotel. The hotel would have come to the city anyway, and the mere matter of whether their site was assessed for \$50,000 or \$150,000 would not have stopped them.

Should the G. T. P. refuse to build their hotel because the city charged them as much taxes as anyone else, it would be to the obvious advantage of the C. N. R. or the C. P. R. to build an hotel and place the G. T. P. at a disadvantage in handling the tourist trade.

In fact, it is altogether likely that the C. N. R. and the C. P. R. will build hotels anyway, and when they do, the city will have the precedent established that an hotel which costs a million dollars should be given a fixed assessment of \$50,000. Why not put it in the form of a bylaw or an amendment to the charter?

Chief of Police Natural Leader Of Aerial Squad

Edmonton has a chief of police who puts all the storied stupidity which Conan Doyle attributes to the regular police force to the eternal bow wows.

Yesterday afternoon a negro gagged and chloroformed a girl and robbed a house. The police started out to capture the culprit, but forgot to guard the railway station.

Probably what this new chief of police thought was that the negro would escape from the city by going straight up in the air. In this case the chief would have had a chance to catch him, as he would have been invading the chief's own precinct.

Canada's Budget Only Possible By Methods of Peace

A gross revenue of \$17,000,000 with a surplus of revenue over ordinary expenditures of \$30,000,000 is a statement which few countries in the world could improve on.

To maintain great armaments, countries in Europe grind more taxes out of the same area of territory than Canada does, but in the payment of these taxes the people bear a burden which warps the national development and stunts the people.

To carry on the ordinary government in time of peace, Canada collects more money per capita than any of the nations of Europe, and the burden is scarcely felt, while the very expenditure of the money on the peaceful development of the country adds to the prosperity of the nation.

Canada's enormous budget is only possible because Canada has fewer parasites than the thousand working people to the thousand of any other nation, and budgets such as Fielding proclaims will stop when Canada steps aside from the paths which have led to greatness.

None So Happy As Those Who Are Batty—Cornwall

J. K. Cornwall has been giving the residents of the cent belt some new philosophy along with his regulation boost for the north country. In Montreal the other day he opened his address to the Canadian club with the epigram: "You may think these people (those who are settling in Northern Alberta) are crazy, but I tell you there are none so happy as those who are batty."

The phrase is so genuinely Cornwall that it would be recognized in a library. None of your useless disputation about whether the people who go to the Peace River are inoculated with that characteristic which in some countries is called fogginess, in others conservatism and in others sanity—according to how far you happen to go east.

No time to waste on the like of that. The point is that people are going to the Peace River and that, knowing something of the country, they are satisfied with the outlook. The duty which J. K. sees is to make more people acquainted with the new Eldorado and not bother while doing it with any such non-essential side issues as a nation's mental balance.

JUST PARAGRAPHS

The Journal will soon be arguing that the closest gas well in the north is the one which supplies the Northern Lights.

A London, Ontario, man who smoked five thousand cigarettes in three weeks, died. The dispatches do not state the cause of his demise.

The privy council has granted the appeal of the Russian government allowing it the right to take Federnko back from Canada. Federnko, however, is in San Francisco.

With reciprocity such a menace to the union jack it seems tough luck that Doctor Beattie Nesbitt is not in Toronto to help the Manufacturers' association defend the old flag.

"THIS DATE IN HISTORY"

April 5.
1791—George Jacques Danton, leader of the French revolution, guillotined.
1802—Emmanuel Leiz founded the first trading post in Nebraska.
1814—Napoleon renounced the throne of France and Italy, and accepted the island of Elba for his retreat.
1836—John T. Raymond, born in Buffalo, died in Evansville, Ind., April 10, 1887.
1853—Planet "Thémis" discovered by A. De Gasparis.
1858—Gold discovered in British Columbia.
1852—Federal army under Gen. McClellan began the siege of Yorktown, held by 20,000 Confederates.
1864—Congress adopted resolutions declaring that France would not be allowed to form a monarchy in Mexico.
1865—First National Unitarian Convention met in New York city.
1892—Washington memorial arch in Washington Square, New York, completed.
1907—Andrew Carnegie gave \$5,000,000 to the Carnegie Institute in Pittsburgh.
1910—Transandine railway tunnel, linking Chile and the Argentine Republic, was formally opened.

"THIS IS MY BIRTHDAY"

Frank T. Bullen.
Frank T. Bullen, the noted English writer of deep-sea stories who recently visited America, was born in Paddington, London, April 5, 1857. His school education was meager, for at the age of nine he was obliged to go out into the world to seek a living. After working for two years in the great English metropolis as an errand boy he began his career as a seafaring life. Later he graduated from the merchant marine as a chief mate, and from 1883 until 1889 worked in the British Meteorological office. It was at the age of 11, while engaged at this latter work that Mr. Bullen began his literary career, achieving fame almost at a bound by his wonderful descriptive writing. His first book, "The Cruise of the 'Albatross,'" set forth in vivid detail many of his own exciting experiences before the mast. This initial effort was followed by many other tales of the sea that won for their author a large measure of popularity among English readers. In addition to his literary labors, Mr. Bullen has attained prominence as a lecturer and has also devoted much of his time to missionary work among seamen in various parts of the world.

CORRESPONDENCE.

Editor Capital.
Dear Sir:—The advent of the one hundred and seventy-five negroes into the community from Oklahoma seems to have caused a great deal of comment, more unkind and unjust than otherwise.

I am quite sure the arrival of the forty Galicians a few days ago was hardly noticed, more than a casual mentioning in the newspaper. They are of the families to which the pleasant ear which is worn in their country. They came here to enjoy the freedom and prosperity of this country that the poorer classes in their country do not enjoy.

The colored people also are farmers, dressed commonly, perhaps, and characteristic of the colored people of the Southland.

They too have come here to enjoy the freedom and prosperity of this country that is denied them in their country on account of color.

They have not come asking favors. They met all the conditions and requirements of the law or they never could have crossed the line, you may be sure of that. All they ask is to be given a fair show; they are not seeking special equality nor asking favors, just the treatment and fair show every man expects regardless of color.

These single-hearted people are kindly disposed, generous and patriotic. You would find them among the first to respond to the call to defend the flag.

"What kind of a career have you mapped out for your boy, Josh?"
"I'm going to make a lawyer of him," answered Farmer Coratwood. "He's got an unconquerable fancy for tending to other folks' business, and he might as well get paid for it."—Western Christian Advocate.

of this great Dominion. They are no cowards! Crispus Attucks, a negro, was the first to fall in the defense of his country in the skirmish on Boston Common, during the Revolutionary war. Thousands died to preserve the nation, as well as to gain their freedom, during the great Civil War of the States.

The Ninth Cavalry charged San Juan Hill in the face of Spanish muskets and saved the day, and incidentally the life of ex-President Roosevelt, during the Spanish-American War. Then how much more willingly would these people shed their blood for a flag that would protect them, indeed.

One can readily see these people are not of the vicious class. The money and stock they bring into this country proves they are honest, hard-working people and law-abiding citizens.

There would not be "one" but one thousand, well-thinking, unprejudiced citizens of Edmonton who would rise up in loud protest against the influx

of the negro if they felt the safety of their home or the honor of their wife, mothers or daughters were jeopardized. Any body would hardly be found upon the streets at night unescorted, and if so, would run the same risk of being insulted by a white man as well as a negro. There have been respectable colored women insulted by white men in this city in broad daylight and let me tell you she felt the insult with the same sting of humiliation as her white sister feels it.

In the name of charity look fairly on both sides of the question. Have you thought of your white brother of the south who commits the same heinous crime that you charge the negro with on the colored women of the South and their men have to stand helplessly by unable to protect. I say it is a crime!

There may be a race problem in the United States—and the white man has his. But I say there is none in Canada, therefore there is no need of a

Booker T. Washington. Booker T. Washington is helping to solve that problem in his own quiet way.

I wish to mention here that the colored citizens of Edmonton have not asked, authorized, appointed or elected any one man or body of men to act as sponsor for their conduct. They were self-respecting, law-abiding citizens in the community from where they came and are the same here. I am quite sure the city's well-organized police force can take care of the few undesirable negroes who drift into the city. They do not need any one to spy on their conduct and report them to the police. The city is paying their detectives to do that.

I am glad to say that God will always raise up a broad-minded, unprejudiced man to defend a defenceless people and even in Canada there can be found a John Brown, a Lovejoy, or an Abraham Lincoln to defend the negro. EFFIE SLATE.

COUNCIL WILL HOLD ADJOURNED MEETING THIS EVENING TO TAKE UP PROPOSED GAS AGREEMENT

Draft Agreement Says That Company Must Lay Mains in Lanes Instead of Streets—Date of Taking Plebiscite on Gas Question Will Be Probably Be Decided Upon at Tonight's Meeting

Last evening the city council sat until midnight in consideration of the agreement for a twenty-five year franchise with the International Heating and Lighting Company for the supply of artificial gas. The agreement is based upon the report presented by the industrial committee at the regular session last week, and the details of the clauses were considered at great length. At twelve o'clock the committee of the whole reported progress and the council will meet again this evening for the purpose of disposing with this agreement, and with general business, including consideration of applications for local improvements.

The question of a plebiscite on the gas question was not raised at the meeting, but will be brought up tonight. Among the changes in the draft agreement was a clause which provides that the mains of the company shall be laid as far as possible along the lanes of the city, the streets being preserved free from these encumbrances.

All damage to the city or private property which may arise, shall be borne by the company, and in the event of any such question of damages being brought up, the onus of proving non-liability shall rest with the company. A clause of the supreme court will act as arbitrator of differences as to damages.

At the expiration of the franchise the plant may be purchased by the city, at its actual value, the valuation to be determined by arbitration. Mayor Armstrong contended that in the event of the company securing a franchise and subsequently allowing the city to purchase the plant, the city, which they might have made, should be forfeited to the city. This provision was agreed upon.

If the event of a natural gas supply being secured for the use of the city, an agreement might be reached, according to a clause in the agreement, whereby the company shall become distributors of the gas, the price to be determined by agreement between the city and the company. Objection to this clause was taken by Ald. Melnick and McKenley. "We believe the company is to be given the right to use the city's mains, and if we allow this clause to remain," said Ald. McKenley.

Ald. Melnick proposed that a clause be inserted in the draft to the effect that "the company shall not have the right to distribute natural gas in the city." If at any future time it should be deemed advisable to use the company's mains for distribution of natural gas, a new appeal to the people must be made.

A number of ladies of the Humane Society waited on the council to ask that a city ordinance be passed to inquire into cases of cruelty and neglect of animals in the city, and to ask for a grant. A letter from T. G. Pearce, secretary of the society, urging the need of assistance, was read before the council. The question was referred to a committee consisting of Ald. Hyndman, McKenley and McIntosh, to report to the council.

Protest Against Bussing Hotels. Suppressing Messrs. Gower & Ferguson, Geo. P. O'Connor appeared before the council to protest against the granting of special privileges to the proposed G. T. P. Hotel, its estimate, he said, had an investment of \$200,000 in the King Edward Hotel. The assessment on the hotel was \$100,000 and the value of the present building \$100,000. Men who had put their money into such property should have the same privileges as the G. T. P. or any other company which proposed similar undertakings.

"It seems to us the council should not compel us to pay additional taxes to enable the G. T. P. to go free of payment of their fair share of taxation," said Mr. O'Connor. "It is not fair that our taxes should be increased to help the G. T. P. hotel. What we ask is that you should submit a bylaw to provide similar exemption to us."

Ald. Hyndman thought the two cases hardly parallel. "Don't you think that you are biased because your property is across the street?" inquired Mr. O'Connor. "That is absurd," retorted the Alderman, and other members of the council murmured in protest. Mr. Hyndman dwelt upon the many advantages that would accrue to the city by the advent of a hotel owned by a company which could accomplish many things for the advancement of the city. Ald. Hyndman thought the G. T. P. Hotel would help, rather than injure, other hotels in the city, since it would attract vast numbers of people to Edmonton.

Mayor Armstrong thought that any company that could do as much for the city as this company would do, should receive similar privileges. Ald. Melnick pointed out that the government had twice declined to give permission for a hotel assessment on land. "This fixed assessment is a bad principle," said he. "It was for the people to say whether they favored such a concession. The value of the

G. T. P. hotel to the city would be very great, and it might be worth while to give the company special privileges. "The company are getting less here than in any other city in Canada, where they have established hotels," was Mayor Armstrong's comment. Then the matter was allowed to drop. R. T. Tupper asked permission to install Lucifer prism lights around his new block on First street. It was suggested that the company should give privilege should involve the assessment for floor space provided under the contract. The matter was referred to the building inspector and the public works committee for a report.

Objection to the annexation by the city of the south east quarter of section 15, Township 25, range 24, has been filed with the attorney-general by W. J. Rolfe, owner of a portion of the quarter section. The deputy attorney-general notified the council of the objection last evening. "The matter was referred to the solicitor."

A lengthy report submitted by Dr. Whitlaw, urging the need for food inspection and a bylaw for the regulation of food production and sale in the city, referred to market committee. The city's request that the G. T. P. exchange its property in the south portion of McKenley avenue, needs with the approval of the G. T. P., according to a letter from Solicitor D'Arcy Tail, Solicitor Down will communicate with the G. T. P. to ascertain whether an exchange will be agreeable to them. Petitions for the construction of spans in blocks 4 and 5, R. R. 1, were considered. Application for construction of these sidewalks will be sought to the G. T. P.

HEALTH RESOLUTION ARE DISCUSSED BY 'SCONA COUNCIL (Continued from Page One.)

arrived at by and between this City, and the City of Edmonton.

AND WHEREAS, soon after the first of the year a committee was named by this Council for said purpose.

AND WHEREAS, it is learned by this Council that some of the members of the council so named are absent abroad during a good portion of the season, and that others are expected to be absent on vacations during the summer.

NOW THEREFORE "BE IT RESOLVED" That it is the sense of this Council that an additional membership of four members, should be appointed by this Council to act on the said committee.

AND that this committee should be called together within one week from the date of its appointment by the Mayor of the City of Strathcona for the election of officers, and that permanent secretary should be elected whose duty it will be to keep a correct minute of all proceedings of the committee, and let such minutes be given to inspection by the members of this council, and that the said committee are requested to report to this Council the result of their efforts at the next regular meeting. Moved by J. G. Tipton and seconded by J. T. Radford.

Four Members Elected.

Ald. Tipton explained that these proposed new members he considered it necessary to add to the board since both Dr. Rutherford and Dr. Johnston would probably be away a good part of the summer. He considered the amendment subject on such important ground that he favored adding it to the board at least two members from the board and the other two from the board of health, though he suggested no names.

For the new council representatives the names of Ald. Tipton, Johnston and Galt were nominated. The balloting resulted in the election of the first two members, Messrs. R. R. Douglas, R. H. Christie and R. H. Christie. The names of Messrs. R. H. Douglas, R. H. Christie and R. H. Christie were mentioned for the board of health, the first two named being elected.

Mayor Davies informed council that the civic audits will probably be completed this week, and that the report of the annualization committees will likely be held early next week. The Strathcona committee now consists of eleven members.

Schedule for Park Usage.

A report recommending the granting of the Young Men's Christian Association the privilege of using a part of the athletic park for tennis courts and basketball courts was presented by Ald. Tipton. However he moved that the privilege be granted only on condition that a lease be given the club subject to the direction of the civic committee.

The council at all times hereafter. He explained that this action was not taken with a wish to deprive any undue rights on the part of the committee, but since the park belongs to the city for the use of the citizens, and no clubs or organizations entitled to special privileges thereon. Already he had been approached by the lacrosse team, baseball club, and other college and Varsity football teams for use of the athletic grounds and this made it evident that selection of clubs should be drawn up granting each organization certain times for games and practice. He saw no reason why there need be any conflict of the matter if quietly handled. The report was adopted.

Hospital Union Certain.

That the University authorities are agreeable to co-operating with the city in a hospital was reported by a letter to the council. He stated that the solicitors are now engaged in framing an agreement.

Correspondence.

Applications for the position of con-

HOTEL EMPLOYEES ELECT OFFICERS

A meeting held in the lodge rooms, 210 Howard Ave., of the Hotel and Restaurant Employees Union, Local 55, for the purpose of electing officers for the ensuing six months, resulted in the following:

President, Mr. Leonard Rice; vice-president, Mr. Albert Payne; recording secretary and business agent, Mark C. Rogers; financial secretary, Mr. Albert Van Boven; treasurer, Mr. Albert Payne; inspector, Mr. Charles Cole; chaplain, Miss Lily Jones.

The meeting was remarkably well attended and six new applications for membership were initiated, making the organization over one hundred strong. A lively discussion on the proposed dance terminated in making it a quagmire ball to be held in Mechanics Hall on April 19 with Lynch's Orchestra in attendance.

A petition for bondwarding Donald Street from Hardisty to Walsh, a distance of 2250 feet, was insouciantly signed, and a request that this be advertised has been received.

Paving Petition.

Paving petitions with the approximate cost of each work, are given below:

First street, C. N. R., tracks to Churchill avenue, \$23,315; Queens avenue, present width, 1100 street to railroad tracks, \$24,000; Jasper avenue, present width, 1100 street to west end, \$22,225; Second street, \$22,225; Third to Fourth, \$10,450; Clara avenue, McDougall to First, \$9,850; Kinistino, Doyle to Sutherland, \$24,000.

This does not include the paving of the street railway tracks on First or Jasper avenue extension.

stable in the city police court were received from Geo. Johnston, Thos. Needham and Edward Schelander of Strathcona and Thos. Todd and Kenneth McDonald of Edmonton. Referred to police committee.

A letter from the trades and labor council of Edmonton regarding an agreement with council in respect to electrical matters was turned over to the fire and light committee.

The Twin City Realty Co. of Edmonton wrote offering to sell a strip of land for a street site on Fourth street west from University avenue to Sixth street south. The price asked for a 66 foot street was \$1,000. After some discussion the matter was referred to the public works committee.

A large number of petitions for plank and concrete walks in various parts of the city were on hand and forwarded to the public works committee.

Accounts totalling \$1,312.82 were cleared paid.

Ald. Rankin for the public works committee recommended the construction of a four-foot sidewalk on the east side of the west end bridge on Saskatchewan avenue. Adopted.

Paving Authorized.

Ald. Rankin explained in favor of including in the authorized advertisement for paving the block on Whyte street between Fourth and Fifth streets and those from First street to Fifth street west, with sidewalks and three blocks on Main street south from First to Third streets. Ald. Rankin explained that he made this recommendation owing to the requests for paving on the streets of the city.

The report was adopted.

Mayor Davies reported that he had received F. Harris as constable in the place of ex-constable McIntyre, until April 15 by which time a new man could be appointed.

Gas property owners by mutual consent after their street frontage on corner lots, say from a north to an eastern line, pointing out that two investors in Garneau wish to change their four corner lots from a north frontage to an eastern frontage. Ald. Johnston said, "They would give a line in the rear of their property. The judge thought other cases similar to this will arise when Fifth street west is made a business street by reason of it being the main line of the street railway to the bridge. Mayor Davies thought that the owner living to the rear of the proposed alterations should be considered in such deals as the majority might object to having an extra line run up the side of their lots possibly from two corners of the block. It was that no action could be taken in the matter."

Ald. Rankin again brought up the question of the centre boulevard on Main street north and said he could find no petition calling for its improvement and that he was at a loss therefore to determine how the expenditure of nearly \$1,000 on the work is to be met. It was finally decided to ask ex-Ald. O. Rush, chairman of the 1910 public works board, for a report.

Tenders for Scavenging.

Seven tenders for scavenging contract beginning April 17th and ter-

minating November 1st, next were read, and referred to a committee for a report at the next regular meeting. The tenders were:

A. Garbo, \$3,600.
W. R. Glisson, \$2,900.
G. T. Glisson, \$2,900.
M. Brown, \$2,700.
McMullen and C., \$2,275.
Scout Carleton Co., \$1,975.

Tenders for the completion of the Garneau bridge, the city to furnish material, ranged from \$125 to \$150. Left to the public works committee to arrange if possible with the contractor for the building of a sidewalk, a report to be made at the next regular meeting.

Private tenders on hand showed that the proposed sanitary earth pits can be installed for \$3 each.

Into The Estimates.

An adjourned meeting of the city fathers will be held, this evening at which the year's estimates will be further considered. These will be put in final shape this week if at all possible. Council adjourned at 10:15.

Pioneer's Funeral To-day.

At 2 o'clock this afternoon the funeral services will be held in honor of the late F. H. Sack at the family residence on Sixth avenue north. Burial will be made in the city cemetery.

The deceased was unconscious for five hours preceding his death. Several weeks past he had been in very poor health.

One More Here in '72.

Though only in his 62nd year the late Mr. Sack was one of the real pioneers of this district having come west to Fort Edmonton in 1872. These early association amongst the hardy settlers and traders of those days and his identification later on with the gradual growth and development of the district and particularly with this city, made him widely known and well respected in the surrounding country.

Mr. Sack was born in Perth, Ontario in 1849 but when a small boy moved with his parents to Hamilton where he learned the printing trade in the office of the Spectator. Of English ancestry, distinguished in military annals, he associated himself with militia work at an early age and served as a private during the troublesome time of the Fenian raid. In 1864 he enlisted as a marksman on the first Winnipeg team, corresponding to the 1st of the Fenian raid. In 1864 he enlisted as a marksman on the first Winnipeg team, corresponding to the 1st of the Fenian raid.

In 1872 Mr. Sack joined a survey party under his uncle, J. H. Lynch, the Dominion government to lay out the location of land in the Northwest, and from this work drifted to Fort Edmonton where he decided to remain.

He homesteaded first in the Horse Hills but relinquished this land to take up the homestead which now gives the site for a large section of this city. He followed the railway tracks, on this quarter Mr. Sack erected his log cabin close to the brow of the Saskatchewan where he and his family resided for many years. This log cabin was torn down by Mr. Sack's last year.

With the advance in land values following the establishment of a town on

this side of the river, Mr. Sack he came to reap the reward of his long pioneering work and until at the present time his realty holdings are of great value in Strathcona.

Besides his widow the deceased leaves a family of three grown up children, three young men, two daughters and a son.

IT IS CURABLE

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that has positively guaranteed to completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost you nothing. This remedy has been named Rexall Dyspepsia Tablets. Certainly no other could be more fair, and our offer should be proof positive that Rexall Dyspepsia Tablets are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets. A 25-cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and \$1.00. Remember you can obtain Rexall from any one of the following stores: A. Archibald.

What Good Is a Bullet-Proof Coat If You Shoot 'Em in the Pants?

By "Bud" Fisher

WILL NOW ATTEMPT LONG AERIAL VOYAGE

A flight of 1015 miles in twenty-six hours, from Columbus, S. C., to Hancock, Michigan, undoubtedly the longest and the swiftest aerial voyage ever attempted by a bird man, will be undertaken by V. E. Jossensberger, if negotiations now pending with the Great Hancock club come to a successful conclusion.

Jossensberger, inventor and builder of the "Derplane," proposes to sail his giant craft from the factory at Columbus, S. C., to Hancock next July, should he be engaged to give exhibition flights here during the Semi-Centennial Home-Coming which is

planned to mark the fiftieth anniversary of the Copper Country city. The inventor states that he can transport his machine under its own power at less expense than he could ship it by rail, and that the thousand-mile flight would be merely an incident to the exhibition of the machine in this city.

In his long aerial paunt Jossensberger would sail over seven state, three mountain ranges, and one of the largest inland seas—Lake Michigan. He envisions to make the voyage at an average speed of forty miles an hour, and to make but one stop for fuel and

supplies. The entire journey, he estimates, would consume only a trifle over twenty-six hours.

Jossensberger appears to be in earnest, and is willing to post a large forfeit guaranteeing the successful performance of the feat. He states that he now has pending an offer of quarters and the scene of robberies. In doing patrol duty, their swift movements and unexpected appearance in different parts of the city have acted as a powerful deterrent upon the criminal class, previously had made life miserable.

SPORTING COMMENT

Says the Calgary Albertan:

And now, kind-hearted fan, draw up your chair to the table, take paper and pencil and do a bit of figuring with me and I shall endeavor to show you that under the schedule which we are asked to adopt for the season, Calgary cannot expect to win the pennant. There is one satisfaction in knowing, by the same reasoning, that Edmonton cannot win the pennant either. But that is no satisfaction, for, after all, though we shoot it into the Edmonton fans, and they come back vigorously but with all good nature, yet we know that after Calgary we would prefer to have the Edmonton pack home the flag. But I can show you to a demonstration that under this arrangement neither team is likely to win it.

We shall begin by accepting as a postulate that Edmonton and Calgary will be just about even in the break-away and the finish. It is all very well to jest about the Deacon's team and all that, but we know that the Deacon will have just about as good a team as we have, and not very much better and not very much worse. If it isn't that way in the break-away, it will be that way before the season gets very far along. It is bound to be.

Last season Calgary had to win 69 per cent. of all the games played to nose out a pennant and we didn't win by any big margin, either. That is about the average per centage for pennant winning, though they are made sometimes upon less, but it is not safe to risk it or calculate it upon less.

But Calgary will play Edmonton 60 times. It is not safe to calculate that of those 60 games Calgary will win any more than 30. It may be that we can take 35 or 35, but going on the theory of probabilities, 20 about gets it. Calgary has 48 games with the other towns.

Now let us get back to the previous premise. Conceding that the winning team must take 69 per cent. of the games, means that Calgary must win 74 games to take another flag. But it will have but 50 from Edmonton, and it means that it will have to win 44 of the other 48 games, which of course if a practical impossibility. Place the word Edmonton in the place of Calgary and you have the same story told about our Eskimo neighbors.

Take it another way: There is bound to be one weak team in the league. The other teams are not so well organized as ours and will not be able to brace as quickly as we do. Let us say that it is Moose Jaw. That is pure supposition and no prediction at all. Regina will play Moose Jaw 60 times and Calgary will play Moose Jaw 45 times. Suppose Calgary and Regina are just about even and that Regina defeats Moose Jaw 45 times and is beaten 15 times and Calgary and Edmonton are even, then Regina will lead by 15 straight games, a lead which cannot be overtaken in 48 games, half of which will be played abroad.

So you see that neither Calgary nor Edmonton is going to win the pennant upon this year's schedule. I argue that out on the ground that there will be one weak team in the league, and that that weak team's side partner in this league lineup will profit thereby and that neither Calgary nor Edmonton will be the weak team.

Now that is what the fans will

have to expect, because it is a very unfair schedule, the unfair schedule that ever was submitted for consideration. Remember, I am not condemning it, for under the circumstances, we have to take what we can get, and there doesn't seem to be any other way out of it.

I have just one suggestion and that is, let Farmer Ekstorn order four pennants—no, perhaps three would be enough. One would be for the winner in the bunch. Another would be for the winner of the Edmonton-Calgary series, another for the winner of the Winnipeg-Brandon series, and another

for the winner of the Regina-Moose Jaw series. No club to get two pennants. As a matter of fact, this is not a league at all, but three leagues with playing relations between all the teams. The question in Calgary, if I am not mistaken, will not be whether or not Calgary will win the pennant, but whether or not Calgary will win out in the Calgary-Edmonton series.

But what we all want is to see good baseball, so what does it matter how it goes, as long as we do see good baseball?

In Paris at least pink is the favorite color for weddings.

COTTON LEAGUE RACE IS ON

Jackson, Miss., April 5.—The race for the championship pennant of the Cotton States League began today with games scheduled in Hattiesburg, Yazoo City and Greenwood. The Jackson team was programmed as the opponent of Yazoo City on the latter's grounds, while Hattiesburg had the Meridian team as its guests. Vicksburg lined up for the initial contest against Woody Thornton's players at Greenwood. The schedule provides for a season of 120 games, closing August 23.

From a fashion standpoint silks have not been in such strong position for many years.

THAT'S GETTING 'EM

The directors of the Moose Jaw baseball club have applied to the citizens for subscription on the following grounds:

1. That the general encouragement of athletic sports is desirable and that this fact is well recognized in at least all English speaking communities and that the encouragement of athletic healthy type of citizen.
2. That professional baseball by the love for clean sport in the boys and adults population during the summer months the maintenance of a professional ball team is justifiable.
3. That it would be unfortunate that the city of Moose Jaw, which claims to be amongst the largest of the cities of Western Canada should admittedly be unable to finance and support such a amount towards the up-keep as would cover any reasonable anticipated deficit.

by greater population are able to support such a team.

5. That a professional baseball team from this city has been and always will be one of the most effective forms of advertising for the city and worth thousands of dollars which might be spent for publicity purposes in any other way, and further attracts a large directly promotes trade and the general prosperity of the city.

6. That the experience of the past supporting and the shareholders of the club has been that the team is not self-sufficient. Moose Jaw Baseball Club have had to personally make up large sums in deficits and the members of the club feel that as there is no personal advantage to them more than to other citizens in general throughout the city in supporting a ball team for the city, and the citizens in general throughout the city should come to the financial assistance of the club and suburbs of the ball team for the season of 1911 such a amount towards the up-keep as would cover any reasonable anticipated deficit.

SPORT CHIPS

The race track interests in New York, which were put out of business when the directors' liability law furnished teeth for the anti-betting legislation, contend that the fair associations throughout the state will also have trouble. In fact, a prominent attorney contends that the owners of New York's three big baseball clubs, the Giants, Highlanders and Brooklyn, could be criminally liable for bets made on the games by fans in the grandstand or bleachers. "All that is necessary," said this attorney, "is to prove that a bet has been made inside of the Polo grounds. Then the district attorney can be asked to prosecute President Hirsch, even though he is down in Texas for his health."

Cy Young, the grand old man of baseball, the hero of more than 500 diamond battles, aided and abetted by his teammates, celebrated his 44th birthday on Wednesday. He is now 44 years old, but young, and his every action on the baseball field that day in pitching and batting marked him as really one of the youngest men in the game.

There is not a Nap who has more ginger. There is not one who takes a greater interest in every move that is made by a member of his own or the opposing team. There are none that so conscientiously goes out each day and takes his workout. He pitches, bats to the out and then to the infield. There is not a pitcher that is so ready to take his turn on the mound.

"Joseph and His Brethren" is the name of a new allegorical comedy by Louis N. Parker. His present plan is to hold it in reserve for George C. Tyler's first season as director of the New Theatre, New York City.

DEACON WHITE SECURES THREE GOOD PLAYERS.

Deacon White has wired the Capital that he has been successful in Spokane in securing two pitchers and a catcher, of a high order. The Deacon wires as follows:

- Spokane, Wash., April 5. Edmonton Capital.
- "Have secured Pitchers Whisman and Collins and Catcher Fright. Collins and Fright are Moose Jaw Sox recruits who were turned over to the Spokane club. Deacon White."
- "This will be mighty good news to the fans, as the Edmonton team is now complete. Whisman is well known here, having been the star pitcher of the Saskatoon team last season, and a mighty handy man in the outfield. With the stick he is a regular bear. Pitcher Collins is in all likelihood the John Collins who pitched for Winnipeg last year, and whose correct name is Arthur Cunningham, the Princeton university star twirler. He was drafted by Comiskey, and turned over by the Roman to Spokane. Deacon will be back on Thursday and will then send out transportation to the Eskimos."
